

2014

<http://www.ii.uib.no/~arntzen/kalender/>

The calendar is a circular arrangement of 12 months. Each month's calendar is contained within a segment that is a portion of a larger circle. The months are arranged clockwise from the top: January, February, March, April, May, June, July, August, September, October, November, and December. Each month's calendar is a grid with days of the week (Mo, Tu, We, Th, Fr, Sa, Su) and dates. Some dates are highlighted in red. The calendar is designed to be cut out along solid lines and folded along dotted lines.

Cut along solid line; score and fold along dotted lines.
